## LEAK OF YALTA PAPERS PLANNED: DULLES

### About Town

And Country

By TIMOTHY T.

#### Start Completion Of New Building at McKinley Baptist

**THIS AND THAT:** The McKinley Avenue Baptist church congregation has started the completion of the church building at Sloan and McKinley.

The sanctuary and the west wing of the structure have been completed for nearly three years with the old church building remaining on the east corner.

Now the old structure is being torn down and the east wing, just like the west one, will be built.

**DO YOU** have as many dandelions this year as I have? I've mowed 'em down but they come right up the next day. Maybe it's the wet season.

**JOE FREDERICK**, Harrisburg lad, is getting some nice publicity down at Columbia, South Carolina. Joe is a sophomore at the University of South Carolina and from the newspaper stories, it appears that he might be a regular end this year. Joe, well over six feet tall, weighs around 220 pounds, his mother, Mrs. Jean Frederick, told me.

Joe appeared in a couple of pictures carried in a newspaper down there, one showing Coach Rex Enright with three promising players. The other shows Joe and another player chatting with a former Chicago Bear end, Connie Mack Berry. "Both, on the basis of their work in spring training, appear to be possible starters next year," the outline says.

**DIDN'T KNOW IT**, but Juanita Maddox, former local woman, is working for TWA in New York City. She wrote that she enjoys receiving The Daily Register, and comments about New York City: "Gosh, I didn't realize there were so many people in the whole, wide world. It's quite an experience to see the mobs file out of Grand Central on a week day. Heaven pity you if you're not headed in the same direction for you'd soon get mowed down by the crowd."

"I talk with Lib Staiger, Frank Thomas and John Bennewitz quite often and in spite of the vastness of this cement jungle, Harrisburg is pretty well represented."

**SNOWBALL** got back to the Sisks all right. The Jack Sisk family moved to Riverside, Calif., and took their dog, Snowball, with them. But Snowball wound up in the Humane society pens there. Luckily, he had his Saline county tag on and the number was sent here, where the Humane society checked and found the ownership. The Riverside society was given the address of the Sisks and Snowball was returned.

"I found the Sisks to be very nice people," the humane officer there wrote the local society this week. Snowball is a nice little dog. He didn't give us any trouble at all."

#### Mitchell is Low Bidder for School Annex at Eldorado

The H. E. Mitchell Construction Co. was low bidder for the Washington school annex at Eldorado at a letting held last night.

The Mitchell bid was just \$69 lower than the next bid, the figure of \$117,770 of John J. Cassidy of Paducah. The Holmes Construction Co. of Marion was third with \$118,419. There were nine bidders for the job. All the figures were base bids.

The addition will consist of a gymnasium and six classrooms. Mitchell during the past week was low bidder to wreck a building constructed on the Anna state hospital grounds constructed in 1869 and to construct a \$40,000 highway storage building at Anna.

#### Dr. Hastings, Former Local Pastor, Heads Baylor Extension Centers

Dr. C. Brownlow Hastings, a former pastor of the First Baptist church of Harrisburg, has been appointed executive director of three centers of a Christian education extension program, sponsored by Baylor University of Waco, Texas.

The program which Dr. Hastings will direct, is expected to attract an initial enrollment of 400 students.

Currently he is chaplain of Buckner Orphan home in Texas.

### Begin Vaccine Shots in Saline County April 25

#### Egyptian Health Dep't to Administer 3-County Program

The Egyptian Health department announced at Eldorado yesterday they will start giving polio vaccine shots to school children beginning April 25.

The department will administer the shots to all first and second grade pupils in Saline, Gallatin and White counties where parental consent is given except in the Harrisburg city schools district, where they will be given by local doctors co-operating with Mrs. Ethel Mathias, school nurse.

The Dorrisville school children, however, will be given by the Egyptian Health department at the Dorrisville school gym along with pupils from a dozen other schools.

All vaccinations by the department will be given either April 25 and May 16 or April 26 and May 17. The schedule of centers and schools:

At Galatia grade school gym at 8:30 a. m. April 25 and May 16: Needmore, Abney, Harco, Bond, Neal, Ebenezer, Raleigh, Galatia, Mt. Pleasant.

Eldorado Washington school 1 p. m. April 25 and May 16: Green Hill, College Heights, Beulah Heights, Washington, Lincoln, Jefferson, St. Mary's Catholic, Bixler, New Hope, Old No. 10, Cross Roads.

At Carrier Mills grade school gymnasium 8:30 a. m. April 26 and May 17: Holmes, Carrier Mills elementary, Dunbar, Lakeview, New Castle, South Willford, East Ledford, West Ledford, Duncan.

At Dorrisville gymnasium 1 p. m. April 26 and May 17: Wasson, Mud, Cottage Grove, Pankeyville, South Walnut, Grove, Pierson, Rudement, Mitchellville, Winkleman, Spring Valley, Colbert, Taylor, Dorrisville.

The health department pointed out that some rural schools may be closed at the time the second shot is to be given but the centers where the first shot was administered will be open.

It also announced that parents of children attending rural schools must assume the responsibility of bringing their children to the proper center on the proper date and time for the second shot.

### Protest Delay In Distribution Of Salk Vaccine

**Delayed Distribution** of the Salk anti-polio vaccine stirred up protests and plans for emergency action today.

Meanwhile, reliable sources said a Salk vaccine market had sprung up in Detroit, Mich. Anyone with the right "connection" could buy a three-shot supply of the vaccine "for a price," the sources said.

The mass inoculation of first and second graders with the polio-killer was proceeding without a hitch in many states and cities. The blitz attack on the disease got underway Monday and first inoculations were scheduled in many other areas today.

But some officials issued bitter complaints against the National Foundation for Infantile Paralysis distribution policy. There were also calls for multi-million-dollar state purchases of the vaccine so that more children could receive protection before the polio season starts.

In Washington, a White House polio conference which will meet Friday was expected to recommend that children between 5 and 9 years old receive first priority.

The conference, called by President Eisenhower, will take measures to insure fair distribution of the vaccine and to prevent black markets.

#### Rockwell Receives Honors at Grand Chapter Meeting

C. Lendall Rockwell of Raleigh, commander of the Harrisburg Commandery, Knights Templar, and high priest of the chapter of Royal Arch Masons, received honors at the Grand chapter meeting of the Royal Arch Masons in Chicago last week.

Conferred on him was the Order of High Priesthood of Illinois, and he was made a Knight of the York Cross of Honor. The latter is an honorary degree conferred on those who have served as a presiding officer of all York bodies.

Present at the Grand chapter meeting were two from Harrisburg, R. C. Davenport and Edw. I. Heister, who hold both of these honors.

### Woman Refused Damages by Jury In Circuit Court

A circuit court jury took only four minutes to return a verdict yesterday which said that Mary Lee Benner was not entitled to damages for injuries received in an auto crash in 1951.

The jury verdict said that Charles Parton, the defendant, was not guilty of negligence. The trial, with Judge Harold L. Zimmerman of Marion presiding, had Atty. Ralph Harris of Marion and law firm, Rumsey and Dennis, representing the plaintiff and Atty. A. L. Fowler of Marion and Atty. DeWitt Twente representing the defendant.

A jury was selected yesterday afternoon to hear another lawsuit, C. C. Fenwick and Zula B. Davis vs. the Blue Bird and Delta coal companies. The suit charges damage to timber as a result of contaminated water running over the ground. Atty. A. O. Boswell represents the plaintiffs, Rumsey and Dennis, Leo W. Burke and Snyder E. Herrin the defendants.

### Acquit Editor of Attempting to Incite Murder

**LAS VEGAS, Nev.** (AP)—Newspaper publisher Herman M. (Hank) Greenspun today hailed his acquittal on charges of attempting to incite the murder of Sen. Joseph McCarthy as a victory for freedom of the press.

The 41-year-old publisher of the Las Vegas Sun was found innocent of the charges Monday night by a federal court jury of six men and six women. The jury deliberated three hours in reaching the verdict. The trial lasted five days.

The government charged Greenspun with violating federal postal laws by sending copies of the Jan. 8, 1954, issue of the Sun through the mails. The issue contained a column highly critical of McCarthy.

The government charged it tended to incite the "murder or assassination" of the Republican. Greenspun said his acquittal was a triumph for free speech, freedom of the press and the American jury system.

"All Americans can take renewed comfort in the American jury system," the publisher said.

In his column "Where I Stand" in the Jan. 8, 1954, issue of the Sun, Greenspun wrote "Sen. Joe McCarthy has to come to a violent end. Huey Long's death will be serene and peaceful compared to the demise of the sadistic bum from Wisconsin."

"Live by the sword and you die by the sword," the column read. "Destroy people and they in turn destroy you."

He also said "chances are that McCarthy will eventually be laid to rest at the hands of some poor innocent slob whose reputation and life he had destroyed through his well-established smear technique."

Greenspun's attorneys had argued that the column was not an attempt to incite anyone to murder the Wisconsin Republican but was instead "an opinion about what might happen in the future" based upon McCarthy's activities in the past.

### Death Takes Frank Webb

Frank Webb, 78, died at the Barnes hospital in St. Louis today at 11:45 a. m. Mr. Webb made his home in the Buena Vista community.

The body will arrive at the Gibbons funeral home here late this evening. No further arrangements were available today.

### Two Hurt at Blue Bird 8, One Sent to Hospital

Two Blue Bird 8 coal miners were injured shortly before noon today when caught in a rock fall while working.

They are Gratton Minor, Eldorado, and Hartley Leverette, Carrier Mills.

Minor, taken to Ferrell hospital at Eldorado, suffered a fractured leg and shoulder injury. Leverette was treated for a foot injury and abrasions on the face.

### Arraigned on Charge Of Possessing Moonshine

Milford Franklin Hall of Metropolis was scheduled to be arraigned today before U. S. Commissioner W. W. Damron on charges of possession and transportation of untaxed alcohol.

C. B. Annis, special investigator of the Bureau of Internal Revenue, said he was arrested Sunday with moonshine in his possession.

### London Newspaper Strike Ends

LONDON (AP)—The worst newspaper strike in British history ended tonight after stalling the Fleet Street presses for 26 days.

### McKay Hints of Gov't Action in Coal, Oil Imports

#### Interior Secretary Addresses Meeting Held at Mt. Vernon

**MOUNT VERNON, Ill.** (AP)—Interior Secretary Douglas McKay has hinted at government action if imports of oil climb "significantly" in the future.

McKay told the annual meeting of the Illinois Oil and Gas Assn. Monday night that oil and coal producers claim the oil imports are wrecking their industries.

"Under present laws there is no effective action the government can take immediately to correct the situation," he said.

McKay said, however, that the President's advisory committee on energy supplies and resources has made a careful study of the nation's fuel resources.

"The committee recommended that if future imports of oil exceed significantly their proportions to the domestic oil production in 1954, appropriate government action should be taken," McKay said.

"It also recommended that relationships between imports and domestic production be reviewed from time to time," he said.

McKay said oil and gas wells constantly become depleted and continual exploration for oil and gas resources is needed. He said present tax allowances stimulate such exploration.

At a news conference, McKay said he believed the coal industry will expand "over the long haul."

"We can't give it any single shot in the arm but we are experimenting all the time to find new uses for coal in the bureau of mines," he said.

McKay said he did not think electric power plants operated by atomic energy would replace power plants using coal for some time. But he believed peace time power from atomic energy will come "sooner than most people think."

McKay said he did not know the present status of plans for the uncompleted Devils Kitchen Dam project in southern Illinois. An estimated 2-1.2 million dollars is needed to complete the dam and create an artificial lake.

**MOUNT VERNON, Ill.** (AP)—D. R. Stewart, Mattoon, has been elected president of the Illinois Oil and Gas Assn.

Other officers elected at the association's annual meeting here Monday were: E. J. Reading, Evansville, Ind., first vice president; Thomas Duncan, Fairfield, second vice president; Homer Rutherford, Mount Vernon, third vice president; O. F. Beatty, Mount Vernon, secretary, and C. R. Collins, Mount Vernon, treasurer.

### Condition of Bromo Johns Very Critical

The condition of Bronzel "Bromo" Johns, auto victim, was termed very critical today.

Johns, injured Sunday morning in a crash near Harrisburg that took the life of Betty Jo Wenzel of Shawneetown, was moved from Lightner hospital to Cochran Veterans hospital in St. Louis yesterday.

He suffered a broken back in the crash and word today was that he was taking pneumonia.

His mother, Mrs. Mabel Johns, and his brothers, Tommy Johns of Harrisburg and Gene Johns of Terre Haute, Ind., are with him in St. Louis.

### MINES

Sahara 5, 6, 16 and second Washer shift work.  
Peabody 43 work.  
Blue Bird 6 second shift and 8 work.  
Carmac works.

### Runaway Ape Surrenders Meekly to Housewife After Terrifying Film Stars

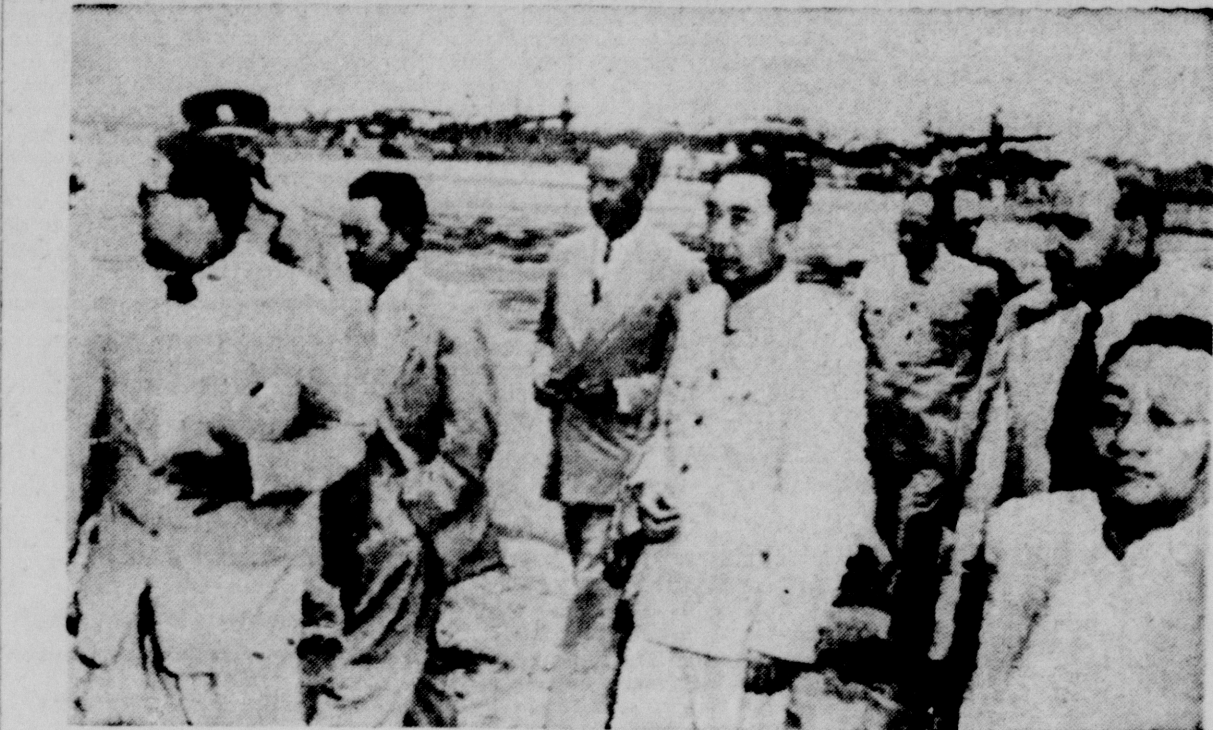

**HOLLYWOOD (AP)**—A four-foot ape named "Buster" came down from the trees and meekly surrendered to a housewife Monday night after throwing film stars living in the fashionable Bel-Air district into a state of panic for 24 hours.

Buster, a gibbon captured recently in the jungles of Siam, escaped from his cage in the home of actor Jay Robinson Sunday night and disappeared into the hills.

Such celebrities as Greer Garson, Jean Simmons, Victor Mature, Aline Dahl and Fernando Lamas locked their doors and called out the dogs while the long-armed, 40-pound simian was on the loose.

Buster, apparently hungry and lonely, gave himself up without a struggle to Mrs. Laura Coughlin after one of her children saw him swinging from the trees.

West Los Angeles police officers C. A. Couch and D. G. Kringer picked up Buster at her home and

**CHOW TO AFRO-ASIAN CONFERENCE**—Chinese Communist Premier Chou En Lai (center, in uniform) walks to his plane at Singapore, prior to departing for Indonesia where he attends the Afro-Asian Conference at Bandung. Chou charged that sabotage caused the crash of an airliner carrying Red China delegates to Bandung last week. (NEA Telephoto)

### Council Approves Procedure for Buena Vista to Tap City Water

The council of the city of Harrisburg this morning approved water board action of April 12 which outlines a procedure for Buena Vista residents to tap on to the Harrisburg water supply.

Plans call for the laying of about a mile of six-inch pipe from the swimming pool one mile west to the Buena Vista community.

The city will furnish six-inch pipe, which it already owns be-

cause it was used as surface pipe to bring water part of the way from Blue Lake last summer.

All other expenses of installation and connections must be met by the property owners. After the expense of laying the pipe is borne by a group which has signified it will take care of the costs, all other persons who desire to connect on must pay a \$150 fee to the city.

At present 20 property owners have signed an agreement to bear the cost of the project.

**Grant Right-of-Way**  
The fee for water in Buena Vista will be \$3 per month, it was decided.

Acceptance of the water board action was unanimous.

In other action this morning the council gave final passage to Ordinance 612, which gives the Southeastern Illinois Electric Co-operative right-of-way privileges to run power lines into the Lake Harrisburg area.

Also \$2,971.65 from the foreign fire insurance account and \$609.48 from the sewer bond reserve were transferred to the general account and applications of H. Edwin Towle and Scerrial Thompson for cabin sites on Lake Harrisburg were approved.

The council, in its final month of operation, will meet at 2 p. m. tomorrow to canvass today's city election vote, will convene again at 2 p. m. April 27 to open bids for the Sloan and O'Gara street paving projects, then meet May 3 to turn over the administration to the newly-elected council.

The Marines had just returned from Korea.

Base officials said the shell was of "an undetermined calibre" and apparently had been picked up by a Marine on the Camp Pendleton artillery range as a "souvenir." The man who dropped the shell was unidentified, but officers confirmed it was not Swann.

The explosion occurred just after members of the 3rd Battalion, 5th Regiment of the 1st Marine Division fell out in front of the mess hall.

The blast shattered mess hall windows, but otherwise did not damage surrounding barracks.

### Divisional Ladies' Night Meeting by Kiwanians Tonight

A Kiwanis divisional ladies' night meeting will be held tonight at the Masonic temple with the Harrisburg club host to members and their lady guests from other clubs in Division 16.

The dinner meeting will begin at 7 p. m., an hour later than usual, to allow time for club members from other towns to arrive in time for the meeting.

Dr. Paul Hunsinger, associate professor of speech at Southern Illinois university, will be the guest speaker. His address will be on "The Unfair Sex."

Lt. Gov. Ray Owen of Marion will preside at the meeting.

Present at the coffee were Mrs. Harold Brown, Mrs. Glynn McCrackin, Mrs. John Slighton, Mrs. Inglis Taylor, Mrs. George Hensley, Mrs. Ray Johnson, Mrs. R. C. Penfold, Mrs. George Chrisman, Mrs. Donald O'Neal, Mrs. William Farley, Mrs. Russell Ashford, chairman, Mrs. C. H. Dixon, public information chairman in the Saline county chapter, and Mrs. John Belt, executive secretary, and the hostess, Mrs. B. E. Montgomery.

### Indicate May No. 1 Oil Test Will Be 170-Barrel Day Well

Best reports today were that Donald L. Foote's May Community Unit No. 1, 400 feet south and 300 feet west of NEE SE NE, 34-8S-6E (Raleigh township), which was brought in Sunday, will make about a 170-barrel per day well, which should continue to spur activity in the North Harrisburg area.

One well is being drilled now. Foote's Grover Abney No. 1, NWC NW NW, 8-9S-6E (Harrisburg township) and there are reports that others will be started in the near future.

Foote, who got the permits that are opening the field north of Harrisburg, is an Evansville geologist-operator.

### Plan Organization Of Youth Center

Plans for the organization of a youth center in Harrisburg, with Delta Theta Tau sorority heading the organization, were discussed at the regular meeting of the Harrisburg Lions club Monday evening.

The sorority is requesting the assistance of all civic, service and fraternal groups in the city.

The Lions voted to cooperate in the program and Dale Sullivan was appointed to represent the club on the board of directors.

The Lions also voted to contribute \$25 to the Saline County Chapter cancer fund.

### William Hopkins To Head Rotary

**Lt. Col. Hunter**  
**Discusses Far East**  
**In Club Address**

William Hopkins, CIPS manager, was named president of the Harrisburg Rotary club for the year 1955-56. He will take office July 1, succeeding John Foster.

Mr. Hopkins served as president of the Marion Rotary club several years ago when a resident of that city.

Members of the board of directors for the coming year are: Millard "Pusher" Lynch, Rev. Joe Morman, Ed Kirkpatrick and Russell Malan.

Speaker at yesterday's meeting was Lt. Col. Allen M. Hunter, commanding officer of the St. Louis recruiting station and a former U. S. Army deputy military advisor to the Japanese First Army.

Col. Hunter, who returned only last January from the Far East theatre, was introduced by Mr. Foster.

Col. Hunter early in his talk impressed upon his audience that his remarks were made as a "civilian in the army" and bore no official representation or opinion.

He discussed briefly the differences in the peoples of the Far East and described them as "basically our friends." He said the Japanese people were our most dependable friends in the Far East.

The matter of "face" is of deep significance in the East, he reminded, and anything this country does which in a manner of speaking "loses face" is costly to our position with them.

The colonel felt that any continual withdrawing in the Far East, here and there, would have a definite effect on our allies, for they would be prone to feel we might always promote the "give-away."

Most of the countries in our ring of defense, he said, are strongly anti-communist. Japan is by far the most industrialized of all the nations and therefore would be quite a prize for the Russians.

Guests at the dinner yesterday were Rev. J. O. Morman, Glen Faison, Dr. Charles Neal and Robert R. Schmitz.

### The Weather

**ILLINOIS:** Considerable cloudiness, scattered showers and thunderstorms this afternoon, tonight and Wednesday. Locally severe thunderstorms likely north this afternoon and evening. Warmer extreme north tonight and Wednesday. Turning cooler northwest Wednesday. Low tonight 65-70 south. High Wednesday 75-85.

### LOCAL TEMPERATURE

**Monday** **Tuesday**

### Claims Action Was No Breach Of Security

#### Secretary Testifies At Closed Hearing Of Senate Committee

**WASHINGTON (AP)**—Secretary of State John Foster Dulles admitted today that Asst. Secretary Carl W. McCordle gave the long-secret Yalta papers to one newspaper 19 hours before they were generally released.

But Dulles said this "involved no breach of security." He defended the planned leak of the controversial documents as "an exercise by Mr. McCordle of a discretion that was his."

Dulles' prepared testimony on the circumstances surrounding sudden publication of the documents was made public by Chairman Walter F. George (D-Ga.) at the outset of a closed door hearing of the Senate Foreign Relations committee.

The secretary's testimony showed that McCordle delivered the documents to a New York Times correspondent on Tuesday night, March 15, and that British agreement to permit publication was not received until the following morning.

The documents were made public generally Wednesday night after White House Press Secretary James C. Hagerty and several senators learned that the Times had them and insisted that all of the press be given access to them.

Dulles said McCordle had authority to declassify the documents. He said he left the matter in McCordle's hands after James B. Reston, Washington correspondent of the Times, had "urged that it was of the utmost importance that the papers be published as a whole" and that only the Times would print the entire text.

Dulles said he had first planned to make public the papers last fall but decided to hold them up because publication just before the congressional elections would have appeared to be politically motivated.

**Defends the Release**  
He told the committee he had been seeking British Approval to publish the papers since Dec. 2, 1954, but did not get a final okay from Sir Anthony Eden, then British foreign secretary, until the morning of March 16, after the papers already were in the Times' hands.

Dulles also defended the inclusion of "chit-chat" and personal conversation in the official documents—a sore point with former British Prime Minister Sir Winston Churchill. Dulles said it was hard to know what to eliminate when the principals in the 1945 meeting—two of them now dead—did not indicate at the time what was to be deleted from their remarks.

As for the release of the documents in general, Dulles said: "I believe that it was right that the Yalta papers should be made officially public. I believe—and still believe—that the American public, historian and citizen alike, is entitled to all relevant information on this remarkable chapter in world history."

### Two Jets Collide In Flight; One Pilot is Killed

**GAINESVILLE, Tex.** (AP)—Two jet planes from Perrin Air Force Base collided in flight while on a radar tracking exercise, crashed and burned 12 miles southwest of here Monday night.

The pilots of both planes bailed out but the parachute of 2nd Lt. Duane A. Soehren, 25, Saratoga, N. D. failed to open. Searchers found his body a quarter of a mile from the wreckage of his T33 trainer.

1st Lt. Thomas L. Hosch, 25, Park Ridge, Ill., was the other flier. He parachuted from his F86D and landed safely, then joined the search for Soehren.

Hosch was unable to say what caused the planes to collide. The first he knew of it, he said, was when he felt a terrific jolt, and then felt his plane go out of control.

An Air Force board is investigating.

### Report Brisk Voting In City Election

Voting was reported brisk at most of the eight voting places today as Harrisburg went to the polls to name a new city administration.

By 8:30 or 9 p. m. the administration that will govern the city during the next four years should be known.

To be elected are a mayor, four commissioners and a police magistrate.

## The WASHINGTON MERRY-GO-ROUND

by DREW PEARSON

DREW PEARSON Says: Ad-  
mirals eat oysters on Uncle  
Sam's Time: Shocking Ex-  
penses Uncovered At Naval  
Base Near Yorktown, Va.:  
Commanding Officer Installed  
Fancy Bar Costing Taxpayers  
\$1,316.82.

WASHINGTON. — If you like  
oysters, join the Navy. But don't  
enlist. Get a commission and have  
yourself assigned to the Cheatham  
Annex depot of the Naval Sup-  
ply Center between Yorktown and  
Norfolk, Va.

For years oysters have been dug  
and shucked on government time  
at Cheatham Annex by civilian  
workers of the Navy Department  
destined exclusively for the digest-  
ible tracts of Navy brass.

They were eaten at the officers' mess  
at Cheatham Annex. They  
were shipped via Navy mail facili-  
ties, at the rate of six to eight  
quarts a week, to the officers mess  
at the Norfolk supply center.

And, prior to his retirement on  
Aug. 1, 1953, they were also ex-  
pressed regularly to Washington  
for the personal use of Vice Adm.  
Charles W. Fox, Admiral Fox,  
known to his men as "Oyster  
Forks Charley," was the Navy's  
paymaster-general from 1949 to  
1951 and was chief of Navy mater-  
iel from 1951 to 1953.

Now on the carpet over this and  
other shocking revelations at  
Cheatham Annex are Comdr. F.  
L. Chapman, who commanded the  
depot from 1948 to 1953; Lt.  
Comdr. L. W. Race, who was  
there from 1953 to 1954; and  
Comdr. W. G. Nichol, who was in  
charge from Jan. 4, 1954, until his  
replacement by Rear Adm. A. A.  
Antrim on April 1, 1954.

TOY TRAIN PARTS  
A General Accounting Office in-  
vestigation also discloses that of-  
ficers at Cheatham Annex used  
government money and govern-  
ment personnel to make toys for  
their children and to build a vir-  
tual country club for their private  
off-duty enjoyment.

Moreover, due either to sheer  
incompetence or negligence, addi-

tional thousands of dollars in pub-  
lic funds were lost to the govern-  
ment through faulty administra-  
tion.

Lt. Comdr. Race was found to  
have bought parts for a toy loco-  
motive for his own personal use,  
and paid for them with a check  
written on government funds. The  
parts comprised 30 small wheels  
and axles for an electric train set.  
"An excessive stock of pallets  
was on hand," states the confi-  
dential GAO report, "some deterio-  
rating in open storage space. New  
pallets were being purchased for  
this and other activities." Total  
cost of the new pallets was  
\$539.696.

"An expensive locomotive crane  
is kept but used only a few hours  
a year. In emergencies a crane  
could be rented from the Ches-  
apeake and Ohio railway and would  
be available on two to three hours  
notice." The crane was used only  
49 hours in a total of two years,  
yet it cost \$1,030.22 to service.

A civilian cafeteria operated at  
Cheatham Annex, owed the govern-  
ment \$10,723.77 for electricity,  
water, and various other utilities.  
It was also found that government  
employees using the cafeteria  
owed \$4,469.90.

FANCY MAHOGANY BAR  
It was also discovered that the  
Navy had installed a fancy ma-  
hogony bar in the commanding of-  
ficer's residence, equipped with  
running water, sink, and electric  
refrigeration. The bar cost Uncle  
Sam a whopping \$1,316.82.

The officers' mess at Cheatham  
Annex had a total membership of  
only seven officers. To accommo-  
date them, the kitchen in the of-  
ficers' mess was redecorated at a  
cost of \$1,285.89. Wood cabinets,  
apparently in good condition, were  
replaced with steel cabinets. Two  
new kitchen ranges were purchas-  
ed, though the old ranges appear  
to have been in satisfactory con-  
dition.

On top of this, the officers' mess  
was found to owe the government  
\$465.59 for electricity and other  
utilities, plus \$305 for janitor ser-  
vice.

"Equipment purchased for the  
officers' mess was charged to other  
activities," stated the confi-  
dential government report.

GAO investigators were mysti-  
fied over a 9-hole golf course main-  
tained by naval officers. No rec-  
ords could be found explaining  
how the officers financed the con-  
struction of the course, yet it ob-  
viously had not been dropped  
down by parachute.

Commander Nichol told the in-  
vestigators that the golf course  
was watered with hoses. But when  
government inspectors checked,  
they found an efficient sprinkler  
system had been installed, not un-  
like that which had been installed  
for President Eisenhower by  
friends at the Burning Tree club at  
a cost of \$80,000.

"Expensive storm windows and  
screens were purchased for mar-  
ried officers' quarters," stated the  
GAO report. "Two hundred wood  
frame storm windows, apparently  
new, were found in storage. No  
work request for making the storm  
windows was found nor could any-  
thing be learned of their intended  
use."

"Aluminum awnings costing \$900  
were purchased for the building  
used as bachelor officers' quarters.  
That building does not have alu-  
minum awnings."

"Five electric ranges and a re-  
frigerator, apparently in good  
condition, were removed from  
quarters and placed in storage."

"A small building, formerly a  
guest house, was moved twice and  
altered at a cost of \$2,326.96. The  
cost was charged to maintenance  
of active buildings, although the  
intended use was as a recreation  
facility. After the job was com-  
pleted, the building was redesignat-  
ed as a recreation facility."

"Ten small boats were built, ap-  
parently for recreational use. Six  
were charged to maintenance of  
piers and related equipment. Four  
were built on a work request which  
did not show job order number or  
appropriation to be charged."

Yet the Navy says it doesn't  
have \$600 to repair Roosevelt's old  
sloop for the use of midshipmen at  
Annapolis.

Those few Defense Department  
officials who know about the GAO  
report say the Navy should change  
its enlistment posters to read:  
"Join the Navy and eat oysters."

The Daily Register 25c a week

Pfc. Huey D. Gibbs, whose base  
is in Quantico, Va., is spending a  
15 day furlough with his parents,  
Mr. and Mrs. Charles Gibbs, RFD  
2, Elizabethtown, and with other  
relatives and friends. He has been  
in service for 19 months.

Cpl. George Jerry Hensley, son  
of Mr. and Mrs. George Hensley,  
was released from military service  
a few days ago and arrived home  
from Fort Riley, Kans., where he  
spent the major portion of his time  
in military service. He will re-  
sume his college education inter-  
rupted by military service and will  
select a school soon to finish work  
on his Master's degree in Health  
and Sanitation.

Sgt. Edward R. Kimmel, son of  
Mr. and Mrs. L. B. Kimmel of this  
city, who served 18 months in Ko-

## New State Highway Map is Ready For Distribution

SPRINGFIELD, Ill. — The new 1955 Illinois highway map is off the press and ready for distribution.

For the third consecutive year, the single map is being issued jointly by the offices of Governor William G. Stratton and Secretary of State Charles F. Carpenter.

Governor Stratton and Carpenter inaugurated the combined publication in 1953 to replace the two which for many years had been published separately by the Department of Public Works and

Buildings and the Secretary of State. The joint map saves approximately \$10,000 annually in printing costs, plus additional postage and distribution expense.

The 1955 map, showing all numbered routes in the state's highway system, also locates state parks, important historical sites, conservation and recreation areas and colleges and universities. It provides a mileage chart between main Illinois cities as well as driving distances from towns in neighboring states, and carries 19 smaller maps indicating routes in the vicinity of Illinois metropolitan centers.

Eight hundred twenty of every 1000 persons suffer from some sort of sickness every year.

## Egyptian Ass'n for Mentally Retarded Children Discusses Purposes of Group

The Egyptian Association for Mentally Retarded Children met Thursday night in the cafeteria of the Junior high school for the regular business session.

The president, W. A. Howe, Carbondale, presided.

During the meeting the group discussed the history and purpose of the association which is as follows:

In January, 1955, after several small group meetings of persons interested in the question of mental retardation in southern Illinois, there was formalized the Egyptian Association for Mentally Retarded Children, a constitution adopted, and by-laws passed.

The present area of the Association comprises the southern 31 counties of Illinois, which are the same counties of the Southern Illinois Crippled Children's association and the Council of 100. These same counties are usually referred to and considered by the Southern Illinois university as the counties which the university principally serves. It was felt in formation of the Egyptian association that this was a most strategic area for a group to work on the problem of mental retardation.

It was, however, provided in the constitution that any counties or groups that had their own organization for mentally retarded children, whether affiliated with the national or state councils or not, could, if they desired, affiliate with the Egyptian association, provided they dropped their membership in the state and national organizations, but the requirement was not mandatory.

The principal purposes of the organization are:

- (1) The education of the public as to the meaning and implication of mental retardation in order to obtain the interest of the public in these problems and gain its support for their solution.

## Scientists Begin Study of Einstein Brain

PRINCETON, N. J. — Scientists today began a study of the great brain of Dr. Albert Einstein. The shy physicist who died in his sleep early Monday had asked that fellow scientists study his brain and other vital organs and they were removed shortly before his body was cremated Monday afternoon.

"His brain looks like everybody else's," a pathologist remarked after a brief examination. But scientists planned to study the gray mass carefully for any physical manifestation of its extraordinary capacities.

Disposition of the ashes of the humble man whose name was known throughout most of the world was not expected to be ordered for some time. Einstein's stepdaughter, Margot, with whom he lived, has been confined to the Princeton Hospital where the scientist died but was expected to be released soon.

An autopsy disclosed that Einstein died of a rupture of the aorta, the main artery of the body. He was quietly admitted to the Princeton Hospital Friday after he was seized with severe nausea.

No funeral services were held for the scientist, although he was not an atheist. He once said he believed, in God as a "superior reasoning power, which is revealed in the incomprehensible universe."

He also said, "I cannot believe that God plays dice with the universe. God is subtle but he is not malicious."

## Carrier Mills Register

### MUSIC BOOSTERS ALLOT FUNDS FOR STUDENTS TO GO TO STATE CONTEST

The April meeting of the Carrier Mills Community high school Music Boosters organization was held Thursday evening in the high school music rooms.

Oather Dunaway presided and minutes were read by the acting secretary, Mrs. Harold Berns.

The balance of the club's funds were allotted to the high school music department. The amount, approximately \$210, will help defray costs of transportation and housing for 40 local students who will participate in the state high school music contest to be held at

Bloomington April 28-29-30.

Mrs. Robert Steely, music director, expressed her appreciation and that of the music department for the Boosters' support during the year. In reply the club voiced approval and pride in the marked progress of the band and chorus.

Mr. Dunaway appointed Wayne Edwards, Mrs. Edward Bell and Mrs. Loren Dallas as a nominating committee for the 1955-56 calendar year.

The May meeting will be a potluck dinner for the music department and families. The graduating music students will be honored at that time and Mrs. Bill Gullledge and Mrs. Elmer Davis are in charge of program arrangements.

At the close of the business session Wanda Jean Holloway sang "I Believe" and "I Heard a Forest Praying," with Mrs. Steely playing the accompaniment.

Refreshments were served by Mrs. Loren Dallas, Mrs. Wayne Edwards and Mrs. Steely.

**Cadillac**

**What The Doctor Ordered...For Himself!**

The doctor had owned his new Cadillac for about a month—and he was talking to a friend.

"About the only recreation I get," he said, "is at the wheel of my motor car—driving to and from the hospital, my office, and the homes of patients."

"Other doctors, of course, have the same situation—and some of them tell me what a big 'lift' they were getting out of their Cadillacs."

"I decided to see for myself—and they were certainly right. I actually approach the day with a lot more zest—knowing that I am going to spend a couple of hours driving my Cadillac."

The doctor is experiencing, of course, what so many other professional and business men are experiencing—the wonderful lift to the spirits that a Cadillac brings a man.

Try it sometime—and see for yourself.

You'll find there's something about the way you

feel as you take the wheel. You know there's a car under you! Solid, substantial, capable and protective. Just to sit there gives you a wonderful feeling of confidence and well-being.

And when you start to move, the thrill is continuous. You almost never hear the great engine, except when it answers a smart touch to the throttle. Steering is little more than the response to your thought. You just ride and relax.

We hear it every day: "I drive my Cadillac for rest and relaxation."

Why not come in today—and make the test yourself. We'll give you the keys and a Cadillac—and the "rest" is up to you!

P.S. It's only fair to warn you: You probably won't find it easy to give up the keys. Some people simply refuse!

## National Leukemia Foundation Gets Its Start by Death of Teen-Age Boy

By DONALD JOHNSTON  
United Press Staff Correspondent  
ROCHESTER, N. Y. — An all-out fight against fatal leukemia and other mysteries of the blood—triggered by the death of a teen-age boy—is gaining force here under the leadership of three public-spirited men.

While the research and training program is aimed directly at finding the cause and cure of blood

cancer, it is expected also to throw some light on the government's probe of the effects of atomic radiation.

The three spearheading the attack—Hyman J. Mandell, Harold S. Rand and J. Mallory Loos—are currently incorporating the country's first National Leukemia Foundation. Funds raised by the foundation will be granted to medical centers for unrestricted research of blood abnormalities.

Nephew Died  
The impetus for this fight traces back four years to the leukemia death of Mandell's nephew, David S. Smalline. Mandell went to Dr. Lawrence E. Young, associate professor of medicine and director of the University of Rochester's blood research. Mandell asked why David died.

Leukemia, the doctor explained, is a malignant disease of the white blood cells which causes widespread disturbance in the blood and blood-forming tissues of the body. At present the disease causes more than 12,000 deaths in the United States each year and its incidence is increasing about 10 per cent annually. It is the leading cause of death in children between two and five years of age.

Mandell, an energetic and bustling pharmacist, recruited Rand and Loos to help him organize a local drive for research funds. Then he urged his international pharmaceutical fraternity, Rho Pi Phi, to adopt the leukemia fight as its public service project.

Research Grants  
The drive raised \$27,000 in a one-night canvass and was sufficiently encouraging for the trio to aim at an annual nation-wide campaign. With the help of Rho Pi Phi's 8,000 members in 40 U. S. and Canadian cities the men plan similar canvasses across the continent.

The first \$15,000 grant went to the University of Rochester, and the rest of the money into a general fund to be administered by a board of directors with headquarters in the Commerce Building here. A medical advisory board, composed of Dr. Young and medical leaders from various universities, will pass on all research grants.

Scientists receiving such grants will have complete freedom and flexibility in their research. They will not be confined to one path, as is the case in most research grants.

Dr. Young believes the program, with its wide scope, will shed light on investigations of other diseases as well as leukemia. He noted, also, that answers discovered through the program will be shared with government scientists working on radiation.

In this respect, Dr. Young pointed out that the victims of the Hiroshima and Nagasaki A-bombs were found to have an abnormally high incidence of leukemia.

## Bill to Buy Vaccine Introduced in Both Houses of Legislature

SPRINGFIELD — Gov. William G. Stratton's bill to buy a million dollars of Salk vaccine for free shots for Illinois children was introduced in both houses of the Legislature today.

The bill, drawn as an emergency measure, was speeded to the floor by both houses, bypassing the committees that screen most bills. Unless opposition develops, the bill could be passed and sent to the governor April 27.

## Benson to Tour Dust Bowl Areas

WASHINGTON — Secretary of Agriculture Ezra T. Benson said today he is considering a flying trip to the dust bowl area of the Great Plains states to inspect conditions.

No date has been set for the aerial survey which would take him over the affected areas of Nebraska, Wyoming, Colorado, Kansas, Oklahoma, Texas and New Mexico.

"Starvation Year"  
Vermont's "Starvation Year" was in 1816, in which there were frosts every month, crops failed, and hundreds of families sold their farms and moved westward.

The Daily Register 25c a week by carrier boy.

## New British Budget Proposal Promises Income Tax Cut

LONDON — Prime Minister Sir Anthony Eden's new government today submitted an election-year budget which promised a 5.5 per cent cut in income taxes.

Chancellor of the Exchequer R. A. Butler presented the biggest budget in British history to the House of Commons.

The optimistic 1955-56 national budget chopped in half the present 25 to 50 per cent purchase tax on cotton textile goods.

This was a direct bid to salvage the flagging Lancashire textile industry which is reeling under foreign competition.

Butler said expenditures for the coming year would be 4,562,000,000 pounds (\$12,773,600,000), a record outlay.

Butler's declaration that he has chosen to look "on the sunny side" of Britain's economy brought cheers from hard-pressed Britons who sink 34 per cent of the gross national income into taxation.

His income tax relief plan cut

## Traffic Violators Need Instruction

LOS ANGELES — Traffic engineering specialists believe that habitual traffic violators should be sent to school rather than to jail.

A recent study of 300 persons who averaged six violations each in a single year showed they were just as intelligent, just as normal and had the same amount of respect for law as good drivers.

But the one big difference, according to Dr. Harry Case of the University of California here, was that the bad drivers were victims of bad driving habits.

Case, who is on the staff of the Institute of Transportation and Traffic Engineering at UCLA, said that of the 300 habitual violators studied, 90 per cent of them were workers or white collar workers.

The institute's study showed that intelligence and personality evaluations were normal and that "in general, their respect for the law

six pence (7 cents) off the standard rate of nine shillings (\$1.26) in the pound (\$2.80).

is apparently about the same as that of the average driver," Case said.

And yet, Case said, "the group had an average of six violations each during 12 months." He added that "of these, 76 per cent were moving violations such as running a red traffic light or speeding."

Case said the study indicated that "proper training instead of punishment" would do more to eliminate bad habits.

## Stratton to Lay Cornerstone of New State Office Building

SPRINGFIELD — Gov. William G. Stratton will lay the cornerstone of the new 11½-million-dollar state office building at ceremonies April 27.

Stratton made the announcement of the cornerstone laying Monday. The public is invited to attend and inspect the new building following the ceremonies.

A metal box containing the Illinois Blue Book and other topical documents will be placed in the cornerstone.

Sovereigns address one another as "brother" to imply equality, according to the Encyclopedia Britannica.

To reduce dust, use a damp newspaper on which to empty the bag of the vacuum cleaner or carpet sweeper.

## Calendar Of Meetings

The circles of the W. S. C. S. of the First Methodist church will meet Wednesday at 2 p. m. with the following hostesses: Dorcas division with Mrs. Eli Lasersohn, 112 West Walnut; Lydia, Mrs. W. F. Applegate, 200 West Park; Martha, Mrs. T. R. McCormick, 115 West Poplar; Naomi, Mrs. DeWitt Twente, 700 South McKinley; and Ruth, Mrs. J. H. Cummins, 309 McHaney St. All members please bring lenten boxes.

The Garden Heights Home Bureau unit will meet Wednesday at 1:30 p. m. at the home of Mrs. Jack Brown in Muddy.

The Mary Seten circle of the First Presbyterian church will meet Wednesday at 2 p. m. at the country home of Mrs. Joseph M. Hart.

Members of the Harrisburg Woman's club wishing to attend the district convention at Metropolis Wednesday, April 27, please contact Mrs. J. L. Miller immediately so that reservations for the luncheon and arrangement for transportation can be completed.

Xi Chi chapter of Beta Sigma Phi will meet Wednesday at 7:30 p. m. at the home of Mrs. Eli Lasersohn.

## Births

To Mr. and Mrs. Robert Parks RFD 2, Harrisburg, a boy named Robert Earl, weighing nine pounds, five ounces, born April 11 at the Harrisburg hospital.

To Mr. and Mrs. Jackie Junior Shelton, Carrier Mills, a girl named Patricia Ann, weighing seven pounds, four ounces, born April 18 at the Harrisburg hospital.

## Social Brethren Soldiers For Jesus Class Meets

The Soldiers for Jesus class of the Dorrisville Social Brethren church held its monthly meeting at the home of Mr. and Mrs. Leighman Walker in Carrier Mills Friday evening.

The program with the president, Charles Hale, presiding, opened with group singing led by Gene Walker and with prayer by Gene Wilson.

Roll call was answered with Bible verses and the collection was at least \$1 which each was to earn and multiply. Due to the recent revival most members just paid the original dollars with the exception of the class teacher, Mrs. Lance Myers, who made 26 aprons and donated the money received to the class treasury.

The secretary, Marian Hale, gave her report and Alice Wilson, the treasurer's report.

Games conducted by Mrs. Hale and Shirley Guest were won by Mr. Walker, Rev. Clifford Bennett and Mrs. Gus Agin.

Refreshments of sandwiches, potato chips, cookies and coffee were served by Helen Walker and Mrs. Agin to the above mentioned and the following: Gary Walker, Vicki and Judy Hale, Annabelle Bennett, Gus Agin, Shirley Agin, Rev. Tommy Guest and Timmy, with Mrs. Myers returning thanks.

Lt. (jg) Frank H. Cummins spent the Easter week end in Harrisburg and upon returning to his base in Indianapolis, Ind., where he is training officer at the naval armory, he was accompanied by his mother, Mrs. Laura Cummins. Mrs. Cummins returned home Sunday with her son-in-law and daughter, Mr. and Mrs. John Cape, and daughter, Connie, who had been in Indianapolis since Friday.

The Daily Register 25c a week by carrier boy.

**PLANS JUNE WEDDING**—Mrs. Freda Kellner, 927 West Barnett, wishes to announce the engagement and forthcoming marriage of her daughter, Jean Rose, to David Lee Patterson, son of Mr. and Mrs. Frank Patterson, 600 West Sloan. The wedding will take place Saturday, June 18, at 7 p. m. at the First Christian church. Friends are invited to be present. (Ronnie's Studio Photo)

## Officers Elected By Senior Unit of Wesleyan Service Guild

The Senior unit of the Wesleyan Service Guild of the First Methodist church met Monday at 7:30 p. m. at the home of Mrs. Capitola Melton in the regular monthly business and devotion meeting.

Mrs. Helen Dunn, president, presided during the transaction of business. At this time the nominating committee made its report and the following were elected for office for the coming year: Miss Alice Mount, president; Mrs. Olive Dean Dixon, vice president; Mrs. Mary Lois Dabney, treasurer; Mrs. Sarah Tanner, recording secretary; Miss Mary Richardson, promotion secretary. The Guild also voted to give a cash donation toward the purchase of chairs in the younger children's department of the Sunday school.

Mrs. Minnie Morse and Mrs. Dixon presented the devotional thought and the lesson, the theme of which was women's interdenominational work in the world. In both devotion and lesson many facts of this movement were given. The who, what, why, when and where of the United Council of Church Women were ably explained by Mrs. Dixon.

Miss Mount had arranged a devotion setting by placing small dolls of many nationalities about a little white church indicating the Christian women of many nations being drawn toward the work of the churches.

Mrs. Ethel Stain read an article on "Beer for Children" from one of the church papers telling of a cereal drink being marketed for children. The article, evidently written by a parent, showed concern of the results of such a product and advised curtailment of sales.

On roll call, visitors were introduced. They were Mrs. Robert Schmatz, Mrs. Marilyn Henderson and Miss Lydia Ann Rice who entertained the group with a piano solo during the social moments at the close of the meeting.

Refreshments were served by Mrs. Melton assisted by Mrs. Eva Travis and Mrs. Mary Jane Rice.

## Union Chapel Volunteer Class Meets

The Volunteer class of Union Chapel church held its regular meeting Saturday night in the lower rooms of the church.

The meeting was called to order by the president, Reginald Riegel, and the devotion was led by Mrs. Paul Droit. Opening prayer was by Paul Holland.

During the business meeting it was announced that the first meeting of the newly organized Men's Fellowship will be held on the first Friday night in May. The next meeting of the class will be a wienner roast at the home of Mr. and Mrs. Grant Riegel on May 21. Mr. and Mrs. George Bond were in charge of the entertainment period during which games were enjoyed.

Mrs. Bill McIlraith gave the benediction.

Present were Mr. and Mrs. Reginald Riegel and children, Mr. and Mrs. Grant Riegel and son, Mr. and Mrs. James Allen and daughter, Mr. and Mrs. Paul Droit and children, Mr. and Mrs. Bill McIlraith and daughter, Mr. and Mrs. George Bond and son, Mr. and Mrs. Max Swan, Mr. and Mrs. Dean Guy, Rev. and Mrs. Vola Sittig and sons, Mr. and Mrs. Paul Holland and children, and Mr. and Mrs. Clifton Winders and children.

**Family Dinner Celebrates  
Maddox Golden Anniversary**  
In observance of the Golden Wedding anniversary of Mr. and Mrs. Robert Maddox Sr., a family dinner was held Wednesday, April 13, at their home, 105 East Ford street.

With exception of a grandson, Ted Maddox, who is in military service, all of their children and grandchildren were in attendance, as follows: Mr. and Mrs. Henry Maddox and children, Mr. and Mrs. James Maddox and sons, Mr. and Mrs. Robert Maddox Jr. and children. Also present was Mrs. Maddox's sister-in-law, Mrs. Jesse Cannon.

Mr. and Mrs. Maddox did not hold open-house, but a number of their relatives and friends called during the day, and they were showered with gifts, cards and other remembrances, for which they expressed appreciation today.

Two couples from Kentucky, Mr. and Mrs. J. K. White and son of Owensboro, and Mr. and Mrs. Arlis Maddox of Cromwell, who were unable to be here Wednesday, were guests in the Maddox home Saturday.

## Annual West Frankfort Relays To Be Held April 23

Saturday, April 23, the annual West Frankfort Relays will be run at the West Frankfort high school stadium. Preliminaries will get underway at 2 p. m. and the finals are listed for 7:30.

The meet is divided into special events, (scored on a 5-4-3-2-1 basis) and the relays (scored 10-9-8-4-2 basis). The special events are 100-yard dash, high hurdles, shot put, discus, pole vault, high jump and broad jump.

The relays are two mile, sprint medley, mile, distance medley, low hurdle, high hurdle, freshman 880 and varsity 880.

An athlete may compete in two special events and one relay, or two relays and one special, but not in three of either. Each school may enter a team in each relay and two men in each special event.

Preliminaries in all special events and the high and low hurdle relays will be run at 2 p. m. Finals in the shot and discus will be completed in the afternoon.

East St. Louis is defending champion, having scored 87 points last year.

## Jockey Wins First Five Races on Card, Second in Two More

LAUREL, Md. (U)—Willie Hartack turned in a near-record riding performance Monday at Laurel when he won the first five races on the opening program and then finished second in the sixth and seventh events.

If the Johnstown, Pa., youth had swept seven races he would have equaled the world's record set by Albert Whittaker of New Zealand in 1910.

Numerous riders have won six races in one day, including Charlie Burr, the 1951 national champion, who had six-for-six at Gulfstream Park four years ago.

Hartack started his spree Monday with Driving at \$20 for \$2 in the opening race. He then clicked with American Pluck (\$21.20), Top Mark (\$12.60), Our Danse (\$8.20) and Zuyder Zee (\$4.40 in successive races.

In the sixth race, the 21-year-old youth finished second with Impromptu and was second again with I Appeal in the Capitol handicap.

## Fight Results

By United Press  
NEW YORK (St. Nicholas Arena): Milo Savage, 159½, Salt Lake City, outpointed Bobby Boyd, 157½, Chicago (10).

BROOKLYN, N. Y. (Eastern Parkway): Gene Poirer, 144½, Niagara Falls, N. Y., stopped Johnny Busso, 144½, New York (3).

BROCKTON, Mass.: Tommy Nee, 145, South Boston, outpointed Irvin Steen, 151, New York (10).  
NEW ORLEANS: Lawrence Armstead, 138, New Orleans, stopped Charley Slaughter, 133½, Westfield, N. J., (4).

STOCKTON, Calif.: Jaime Basquez, 124, Honolulu, outpointed Ague Villa, 128, San Jose, Calif. (10).

MONTREAL: Bobby Courchesna, 130, Holyoke, Mass., knocked out Art Mullin, 130, Philadelphia, (4).

**STARTING OUT**  
East Lansing, Mich. (NEA)—George Smith, second baseman for the Michigan State baseball team, is a kid brother of Hal Smith, Baltimore Orioles catcher.

By BILL MELTON

Hats Off To Frank Willis! The little guy from Eldorado Township high school isn't exactly built like a top notch athlete, but he has the spirit and heart of a champion.

About 5-7, he looks too small for basketball but manages to hold his own with the bigger guys by speed and deception, and is especially tricky as a south-paw dribbler.

Now comes track season and the little guy blossoms out as the best miler in southern Illinois. He started with victories in dual meets against West Frankfort, Harrisburg and Carmi, then capped his performance to date by taking the mile run in the Mineral Area meet at Hurst-Bush Saturday and he did it after working in a grocery store Saturday morning.

About a week ago he decided he needed to work, but also wanted to continue running so worked out a schedule where he could do both—at least get in most of the meets.

Saturday he worked until 12 noon. A couple of Eldorado men were waiting for him and shortly after 12 were driving to Hurst-Bush. Willis got there in time to limber up and go out and take first place.

In the first meet of the season, at West Frankfort, he won the mile, came back to win the half mile, then was excused for the rest of the afternoon by Coach Al Adams.

However, with the mile relay coming up and Adams wondering out loud who he would use on the team, Willis asked "Do you need me?" Adams told him he had done his part for the day, but Willis replied, "Well, if you need me, just yell."

That kind of spirit will carry a man a long way—in athletics or any other field of endeavor.

**Correspondence Dept.** Received a letter just recently from Conan Smith, former coach at Equality, now coaching at Leland high school.

Smith's first love was track and he revived the sport while at Equality, developing Bob Pitchers into a state champion. Since going to Leland high school, Smith has developed a winning track team there. Last spring the team won six of seven track meets, putting two track trophies and two track plaques in the school's trophy case. This was said to be the first track awards ever received by the school. Last fall Leland's cross country team participated in seven meets, winning five and the freshman-soph team won the Ottawa Invitational Cross Country meet.

So far this spring the school has taken part in six track meets and won all six. Smith has hopes of taking two or three boys to the state track meet.

Smith did alright in basketball also, winning 15 of the last 20 games played, after getting away to a slow start.

**BASKETBALL:** Galatia high school has established a free throw trophy and each year the basketball players with the highest average for free throws will have his name engraved on the trophy, which will remain in the school's trophy case. This past season Glen Clarida, team captain, hit free throws at a 79.2 clip to pace the team. His name is now engraved on the new trophy.

Lawrence Imboden, senior, has been elected captain of the Galatia high school baseball team. Imboden is an infielder.

## NBC Schedules 8 National TV Grid Games; 5 Regional

NEW YORK (U)—An eight-game schedule of nationally televised college football games for the coming fall, including the Army-Navy classic on Nov. 26, was announced today by the National Broadcasting Company.

In addition, the college gridiron TV program drawn up by the National Collegiate Athletic Association calls for five other football dates on which different games will be telecast in different areas.

This set-up for football television was devised by the NCAA's television committee and approved by the NCAA member colleges in a mail vote.

The schedule represents a compromise between those members who wanted a continuation of last year's set-up, under which only one game per week could be televised, and those members who demanded more liberal telecasting.

Here is the complete schedule of nationally televised games: Sept. 17: Miami at Georgia Tech. Oct. 1: Ohio State at Stanford. Oct. 15: Notre Dame at Michigan State. Oct. 29: Iowa at Michigan. Nov. 19: UCLA at Southern California. Nov. 24 (Thanksgiving Day): Texas at Texas A & M. Nov. 26: Army vs. Navy at Philadelphia. Dec. 3: North Carolina at Duke.

The dates on which regional telecasting will occur are Sept. 24, Oct. 8, Oct. 22, Nov. 5, and Nov. 12.

## SIU Defeats Wheaton, 7-6

CARBONDALE, Ill. (U)—Southern Illinois scored all its runs in the first three innings and then just barely outlasted Wheaton College in baseball Monday, 7-6.

Wheaton's four-run rally in the seventh inning fell just short.

## Whitey Ford Blanks Orioles, 6-0, for Second Victory; Dodgers Win Seven Straight

By United Press

Lefty Whitey Ford of the Yankees vowed that this was the season he would get off to a fast start in the spring and go on to win 20 games for the first time in his big league career.

Today, the 26-year-old blond pitching star from Glen Cove, N. Y. has won two games in which he has given up a total of five hits and one run. If he keeps pitching that way, he'll reach that 20 victory goal easily and become the new ace of the Yankee staff in the bargain.

Monday night, hot-rod Ford mowed down the Orioles in Baltimore, 6-0, with just three hits, all singles and all in different innings. Mickey Mantle hit a two-run homer and Irv Noren drilled a double and single good for three runs to make Ford's task easier. In his first start against Washington, he held the Senators to just two hits.

At Kansas City, the Athletics took an 8-0 lead, then blew an 11-9 decision to the Indians when Larry Doby hit a three-run homer with two out in the ninth. The Athletics hit five homers, by Jim Finigan, Gus Zernial, Bill Wilson, Vic Power, and Bill Renna but their pitchers failed to hold the early margin and Ewell Blackwell served up the fatal toss to Doby which sent an overflow crowd of 31,563 home full of dismay after the victory.

Gus Bell drove in three runs with a single and a double in Cincinnati's triumph at St. Louis. The Redlegs chased starter Vic Raschi with a four-run rally in the second inning in which Ed Bailey tripled and Glen Gorbous doubled. Rip Repulski hit a two-run St. Louis homer. Joe Nuxhall, with relief help from Rudy Minarcin, gained his first victory.

Milwaukee came from behind to defeat Chicago when Eddie Mathews hit a two-run double in the eighth inning after a walk to Chuck Tanner and a single by Hank Aaron. Bob Buhl, who gave up only five hits before yielding to a pinch-hitter in the eighth gained the victory, his first.

The Giants pummeled the Pirates with the same glee as all other clubs have hammered them so far, putting over eight runs in a riotous fourth inning. The world champs made 15 hits in all in coming out of their slump against the Bucs who have lost six games and have yet to win one. Whitey Lockman had four hits including a double and a homer to set the pace. Don Liddle, touched for an inside-the-park homer by rookie Roberto Clemente, yielded no other runs until he tired in the ninth and required relief help from Marv Grissom. Grissom stopped the Bucs after they scored two more runs.

## Vern Stephens Is Released by Baltimore Orioles

BALTIMORE, Md. (U)—Vern Stephens, once a slugger who terrorized American League pitchers, scanned the baseball "help wanted" ads today, hoping to pick up a job as a pinch-hitter or utility infielder.

The muscular 34-year-old veteran of 15 seasons in the majors drew his unconditional release from the Baltimore Orioles Monday night after Manager Paul Richards decided that his ailing legs would not stand up for another campaign.

Stephens, who is convinced he can help any major league club on part-time duty, departed with a lifetime average of .287 and a total of 244 homers, including his all-time high of 39 with the Boston Red Sox in 1950.

The Orioles also announced that they had optioned rookie second baseman Don Leppert to Charleston of the American Association. Leppert was one of nine players picked up by Baltimore in the wholesale off-season deal with the New York Yankees. He had been expected to stick because he had a spring exhibition game average of .367. The 24-year-old rookie also batted .313 with Birmingham of the Southern Association last season.

Sam DeNeal, former HTS track star, outraced another former local speedster, Bob Williams, to win the 440-yard dash Saturday as SIU and Rolla School of Mines met in a dual track and field meet. DeNeal helped SIU to a decisive 83-47 victory. Williams, in addition to taking second in the 440 for Rolla, also finished third in the shot put.

Carl Davenport, freshman from Eldorado, took second in the high hurdles, to aid SIU's cause.

## Sam DeNeal Wins First, Bob Williams Second in 440 for SIU

Sam DeNeal, former HTS track star, outraced another former local speedster, Bob Williams, to win the 440-yard dash Saturday as SIU and Rolla School of Mines met in a dual track and field meet. DeNeal helped SIU to a decisive 83-47 victory. Williams, in addition to taking second in the 440 for Rolla, also finished third in the shot put.

Carl Davenport, freshman from Eldorado, took second in the high hurdles, to aid SIU's cause.

### Defeat Attempt to Curb Eisenhower's Tariff Cutting Powers

**By United Press**  
The Senate Finance committee defeated by one vote today a Republican attempt to curb President Eisenhower's proposed tariff-cutting powers.  
It then tentatively approved an administration measure, already passed by the House, to extend the reciprocal trade law for three years and permit Mr. Eisenhower to cut tariffs 5 per cent a year for a total of 15 per cent.  
The President has strongly urged congressional approval of the measure but has run into powerful Senate opposition by members of his own party.

### State Department Opposes Limits On Oil Imports

**WASHINGTON** — The State Department is opposing a move by Sen. Matthew M. Neely (D-W. Va.) to restrict oil imports. The department said such action would be "contrary to the national interest."  
In a paper stating arguments against Neely's proposal, State Department officials said the legislation "is designed to help the coal industry and to protect domestic oil producers."

The President's advisory committee on energy supplies and resources policy said recently that oil imports should be kept in balance with domestic crude oil production.  
But, the State Department paper noted, the committee also said "it was highly desirable" that such a balance be accomplished by voluntary action of oil importers and that "every effort should be made to avoid the necessity of government intervention."

### Disclose New UN Moves to Free Airmen

**UNITED NATIONS, N. Y.** — Secretary General Dag Hammarskjöld said today there were new moves being made to free American airmen jailed in Red China.

## Tornadoes and Wild Winds Hit Midwest

**Eastern Iowa, Western Illinois Areas Battered**

**By United Press**  
Dousing thunderstorms followed tornadoes and wild winds in a vast Midwest area today.

Parts of the West, meanwhile, were digging out from as much as two feet of snow and a new snowstorm swirled over Montana, Idaho and Wyoming.

The violent squall line raced across parts of Iowa, Illinois, Wisconsin and Michigan Monday night and spread thunderstorms through southern lower Michigan, north-east Indiana and most of Ohio today.

Tornadoes battered down barns and farm homes in eastern Iowa and western Illinois and winds up to 63 miles per hour lashed the outskirts of Chicago, causing widespread damage.

At Lansing, Mich., a theater wall was blown in shortly after all the patrons had left. Buildings collapsed and power lines were ripped down in southern Wisconsin.

**Escape From Twisters**  
Miraculous escapes from death were reported in eastern Iowa and western Illinois, where the twisters hit hardest.

A car containing Mr. and Mrs. John Dobbins was whisked up by a tornado near Lanark, Ill., only to be dropped right side up 100 yards west of the highway in a field.

A big tree smashed down near the car and a snarl of utility wires

covered it. But the couple escaped serious injury.

Another close shave was scored by Tony Enteringer, who was picked up by a tornado near La-motte, Iowa, and was dropped behind a fence. A car standing in his farm yard was dumped upside down in a hog lot.

A Lanark farm family huddled in a corner of their basement—the only part of their home which was not destroyed—and the kitchen linoleum was ripped off the floor of another farm house.

### Chicago Suburbs Hit

The storm raced on towards Chicago and hit with full force at the city's wealthy northern suburbs and north side.

The swank suburb of Evanston weathered the worst damage. Giant elms were ripped up, blocking Sheridan Road, department store windows were smashed, and a roof was blown off. More than 500 persons telephoned to report their lights were out.

At nearby Ravenswood six airplanes were destroyed. Part of the roof of the field school in Park Ridge was torn away as Police Chief Willis F. Jones was making a speech inside.

An apartment building roof and a back porch were destroyed, and Skokie, falling wires caused roof fires in Park Ridge, and a broken cable shut off power to southwest Des Plaines.

The wild storm topped the hottest April 18 in Chicago history. The mercury rose to 83.3, but dropped quickly when the storm struck.

More thunderstorms whipped Oklahoma and a funnel was sighted near Sweetwater. Farther north, winds whipped up dust clouds in Colorado and moderate to heavy snow fell on northern Wyoming.

The California Sierra Nevada was digging out from under a worse snowstorm which closed U. S. 40, stranding hundreds of motorists.

The Daily Register 25c a week

## One Dead, Eight Hurt in \$150,000 Hotel Blaze

**CHICAGO** — A series of fires killed one person, injured eight others and forced 150 people to flee burning buildings late Monday and today.

Two persons were missing in a \$150,000 fire on Chicago's North-west Side.

A fire and explosion in a suburban Cicero foundry injured three men today. One of them, Ivory Smith, 50, was blown out of the building that housed Hill & Griffith Co.

Weakened walls and floors at the Humboldt Park Hotel prevented firemen from searching for the two missing men.

Flames broke out in the basement late Monday and roared thru three floors to the roof in a few minutes.

Found dead in his room was Roger Hack, about 45. His brother, Arthur, and George Wyman were missing.

About 120 persons, many dressed scantily, were forced to flee the building. The Red Cross set up a temporary relief station in a drug store.

Mrs. Arlene Runowicz, 37, was injured when she jumped from her second floor room. Four other persons, including three firemen, were hurt.

Police arrested Earl E. Emmett 55, a handyman, and said he had been seen burning rubbish behind the hotel. He was to be questioned at an inquest today.

Earlier, a 4-11 alarm fire forced 30 persons to the street from four buildings on the Northwest Side. Another blaze damaged a real estate office on the North Side.

A hockey puck travels at an average speed of 88 miles per hour, according to tests made with an oscilloscope.

# Brand NEW!

**A gasoline at regular price that gives you**

# MORE MILES PER GALLON!
